The Open Studios of the MFA in Visual Arts return to the  
Athens School of Fine Arts.

MFA opens its doors at ASFA's Pireos campus — a space where research and experimentation thrive, and ideas blossom through creative dialogue. The Open Studios offer the opportunity for direct encounter: for three days, visitors are invited to explore distinct creative worlds in the very moment and space of their formation.

From Thursday, July 3 to Saturday, July 5, 2025, we invite you to visit MET and become part of a unique ecosystem of coexistence and artistic production.
